ABOUT

Computer Science Engineering student with experience in MERN Stack development, responsive web applications, and AI-powered solutions. Skilled in React, Node.js, MongoDB, and REST API development.

EDUCATION

B.E. in Computer Science & Engineering

AMC Engineering College, Bengaluru

2022 – 2026

CGPA: 8.39/10

TECHNICAL SKILLS

Programming Languages	JavaScript (ES6), Python, C, Dart
Frontend	React, HTML5, CSS3, Flutter
Backend	Node.js, Express.js, FastAPI, REST APIs
Database	MongoDB
Core CS Concepts	Data Structures & Algorithms, OOP
Tools	VS Code, GitHub

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern

SuprMentr Technologies

Feb 2026 - May 2026

- Developed full-stack web applications using React, Node.js, Express.js, and MongoDB.
- Developed an AI-powered Smart Helpdesk platform for educational institutions and organizations.
- Designed REST APIs for frontend-backend communication.

PROJECTS

Smart Helpdesk System

React, Node.js, Express.js, MongoDB, Google Gemini API

GitHub

- Developed an AI-powered helpdesk platform for managing student and institutional support requests.
- Implemented ticket management, role-based access control, and AI-assisted response generation.

Cyberbullying Detection System

Python, DistilBERT, Flask

GitHub

- Developed a machine learning model to identify and classify cyberbullying content.
- Utilized DistilBERT for text classification and severity prediction of online messages.

Personal Portfolio Website

React, HTML, CSS, JavaScript

Live | GitHub

- Built and deployed a responsive portfolio website to showcase projects and technical skills.
- Implemented responsive design principles for optimal user experience across devices.

E-Commerce Website (Neobrutalism)

HTML, CSS, JavaScript

GitHub

- Developed a responsive e-commerce user interface using modern Neobrutalism design principles.
- Focused on intuitive navigation, accessibility, and improved user experience.
